Question 10 :
Which of the following does the ICD-10-PCS 2017 new code conversion table allow coders to do?

- A. Analyze and compare ICD-10-CM with ICD-10-PCS codes.
- B. More quickly assign ICD-10PCS codes to multiple procedures.
- C. Update ambulatory payment classification software systems.
- D. View changes to codes and code titles from one year to the next.

Upon completing all required credits, go back to your **Home Page** and you will click on **My CE Portfolio** to verify you have completed the correct amount of credits needed to recertify. Your credits are listed under **CE Items**.

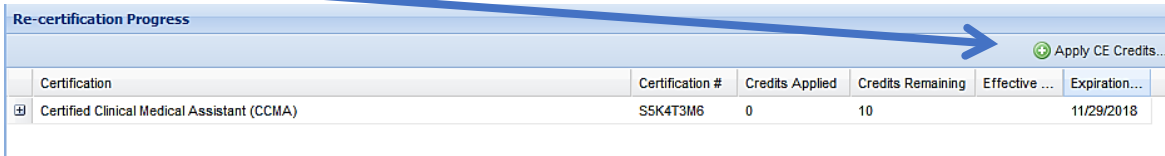

CE Items
